- ◆ White core, great for exposed edges
- ◆ Clean, easy-peel film
- ◆ Specially developed digital coating
- ◆ Lightweight yet rigid
- ◆ Uniform, flat surface
- ◆ 2 year guarantee

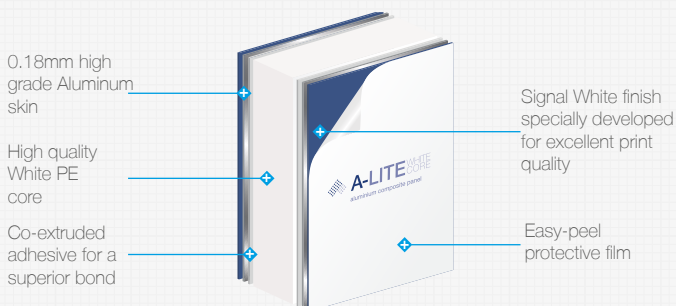

MADE IN BRITAIN

A-Lite White-Core aluminum composite sheet is a high quality digital print panel with a specially developed paint system, a unique easy-peel film and the added benefit of a white polyethylene core - particularly suited for display applications where the edge of the panel will be visible.

Both sides of the panel have a Signal white matte finish that has been developed specifically for digital and screen printing to help display colors with increased brightness and intensity. The high quality film provides excellent protection and is designed to remove smoothly and easily, leaving no residue on the panel

Applications

- Printing direct
- Sign making
- Wayfinding
- POS Displays
- Shop fitting
- Exhibition design
