ALUPANEL[®]FR

aluminium composite panel

A new B1-rated fire resistant Aluminium Composite Panel with a revolutionary core material.

Enhanced fire resistance, excellent fabrication

ENHANCED CORROSION RESISTANCE

IMPROVED CUTTING CAPABILITIES

SUPERIOR ROUTING PERFORMANCE

- ◆ Innovative core material
- ◆ Clean, easy-peel film
- ◆ Versatile and easily formable
- ◆ Lightweight yet rigid
- ◆ Uniform, flat surface
- ◆ 5 year guarantee*

* With the exception of Brushed Aluminum, Brushed and mirror finishes are guaranteed for internal use only.

MADE IN BRITAIN

AlupanelFR is a high quality panel with a specially formulated halogen-free core material designed to offer enhanced fire resistance whilst retaining excellent fabrication characteristics and outstanding adhesion strength.

Our product development team have worked tirelessly to develop a panel that offers our customers a product that is suitable for an immense variety of applications, including environments where improved fire classification is required, but without sacrificing build quality.

Lighter than many fire resistant Aluminum Composite Panels, AlupanelFR not only fabricates extremely well but machining is much faster than comparable products and with minimal wear on machine tools – unusual for a fire resistant panel.

Applications:

- Corporate ID
- Internal wall & ceiling decoration
- Modular/off-site construction
- Sports arenas
- Transport hubs
- Vehicles, trains & boats
- Hospitals
- Sign making
- Splash-backs
- Machine casings

0.3mm high grade Aluminum skin

Lightweight fire resistant (B1) core

Co-extruded adhesive for a superior bond

Available with a wide range of colors and finishes

Easy-peel protective film

Property

Panel thickness (mm)	3	4
Skin thickness (mm)	.012	.012
Weight (kg/m ²)	4.83	5.28
Finish	High gloss/matte	
Core composition	FR (B1)	

Sheet sizes

Width	Length
1220	2440
1500	3050/
